CONDITIONS OF APPROVAL FOR NOTICE TO DRILL

Approval of this application does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease that will entitle the applicant to conduct operations thereon.

Submit an electronic copy of all logs run on this well in LAS format. This submission will replace the requirement for submittal of paper logs to the BLM.

Be aware fire restrictions may be in effect when location is being constructed and/or when well is being drilled. Contact the appropriate Surface Management Agency for information.

A. DRILLING PROGRAM

1. Casing Program and Auxiliary Equipment

As a minimum, the usable water and oil shale resources shall be isolated and/or protected by having a cement top for the production casing at least 200 ft. above the top of the Green River Formation, identified at $\pm 2,501$ ft.

**SURFACE USE PROGRAM
CONDITIONS OF APPROVAL (COAs)**

No drilling or construction activities will be allowed during the Ferruginous Hawk nesting season of March 1 to July 15. If construction is proposed during this time frame, a qualified biologist may survey the nests for activity. If the nests remain inactive, construction or drilling may begin. If any of the nests are active, the project will be delayed until after the nesting season.

Due to the vertebrate sensitivity of the upper Myton formation, a paleontologist must be present to monitor construction of the reserve pit.

One 24-inch culvert must be installed in the drainage at the beginning of the access road.

A second 24-inch culvert must be installed in the drainage where the access road enters the location.

One erosion dam must be built in the drainage south of the reserve pit.

A second erosion dam must be built in the drainage south of corner 6.

The diversion ditch on the east side of the location must be built on the edge of the location, not on the hill above the cut as shown on the cut sheet, as that would divert overflow water uphill. Construction may be delayed until reclamation of the reserve pit.

The diversion ditch on the west side of the location must be extended around the north side of the location until it rejoins the existing drainage. The portion of this drainage ditch that is west of the reserve pit shall not be built.

Six inches of topsoil shall be stripped from the location and windrowed as shown on the cut sheet. The topsoil shall then be broadcast seeded with the recommended seed mix immediately after it has been windrowed and the seed walked into the soil with a dozer.

The topsoil from the reserve pit shall be stripped and piled separately near the reserve pit. When the reserve pit is closed, it shall be re-contoured and the topsoil re-spread, and the area shall be seeded in the same manner as the location topsoil.

Once the location is plugged and abandoned, it shall be re-contoured to natural contours, topsoil re-spread where appropriate, and the entire location seeded with the recommended seed mix. Seeding can be done by broadcasting the seed and walking it in with a dozer. Seeding shall take place immediately after the dirt work is completed.

The seed mix for this location shall be:

Gardner saltbush	<i>Atriplex gardneri</i>	6 lbs./acre
Indian Ricegrass	<i>Oryzopsis hymenoides</i>	6 lbs./acre

All poundages are in pure live seed. Reseeding may be required if first seeding is not successful.

Attention: John Baza/Jim Thompson

Gentlemen:

This will serve as notice that through the internal corporate changes described below, activities formerly conducted in the name of either Shenandoah Operating Company, LLC (SOC) and/or Shenandoah Energy, Inc. (SEI) will hereafter be conducted in the name of QEP Uinta Basin, Inc.: i) the Shenandoah entities were purchased in July, 2001 by Questar Market Resources, Inc., which is a mid-level holding company for the non-utility businesses of Questar Corporation, ii) Shenandoah Operating Company, LLC has now been merged into Shenandoah Energy, Inc. (SEI), iii) Shenandoah Energy, Inc. has now been re-named **QEP Uinta Basin, Inc.** pursuant to a State of Delaware Amended and Restated Certificate of Incorporation, iv) the same employees will continue to be responsible for operations of the former SOC and SEI properties, both in the field and in the office. Accordingly, the change involves only an internal corporate name change and no third party change of operator is involved. Please alter your records to reflect the entity name change. Attached is a spreadsheet listing all wells affected by this change.

Should you have any questions, please call me at 303 - 308-3056.

Yours truly,
